No B.—7955 of 1910.

OFFICE OF THE SURGEON-GENERAL WITH THE GOVERNMENT OF BOMBAY:

Poona, 30th July 1910.

From

THE HON'BLE SURGEON-GENERAL H. W. STEVENSON, I.M.S.,
Surgeon-General with the Government of Bombay;

To

THE SECRETARY TO GOVERNMENT,
General Department, Bombay.

Sir,

I have the honour to submit, for the information of Government, the Annual Report on the Civil Hospitals and Dispensaries of the Bombay Presidency for the year 1909.

Statement A.—Hospitals and Dispensaries.

2. On 1st January 1909 the number of Hospitals and Dispensaries open was 718. During the year 19 institutions were opened, and 14 were closed, inclusive of those transferred from one class to another. At the end of the year the total number of institutions at work was 723, an increase of 5 over last year.

The means of medical relief are still very inadequate in different parts of the country, and to meet this need, a scheme for the establishment of a number of additional dispensaries is receiving the attention of Government. The scheme is almost completed, and it will afford an opportunity for the charitably disposed to relieve much suffering and sickness by aiding Government in building and endowing dispensaries in places where they are greatly needed.

Statement B.—Attendance at Hospitals and Dispensaries.

3. The total number of patients, both in-door and out-door, treated during the year, was 2,250,211 or 47,270 more than in the previous year.

The in-door patients numbered 51,673 against 53,089 in 1908, a decrease of 1,416.

Of the in-door patients treated 33,091 were cured, 4,944 relieved, 4,914 discharged otherwise, and 5,083 died.

The percentage of mortality was 9·8, practically the same as that of last year.

The number of beds available was 5,672, and the daily average number of patients occupying them was 2,797·8.

There was an increase of 48,686 in the number of out-door patients over the attendance in 1908.

The average daily attendance was 19,504·0.

Statement C.—Diseases.

4. Analysis of the numbers treated under the different diseases shows no marked increase except under the head of Cholera, in which they rose from 288 to 2,347. The disease chiefly prevailed in the Deccan, and its spread was largely due to the Sinhast pilgrimage at Násik.

Tuberculosis shows an increase of 102.

Under Leprosy the cases treated fell from 4,012 in 1908 to 1,961 and no cause can be given for so large a decrease.

Among diseases which are largely preventable by attention to cleanliness and simple hygienic rules, Diseases of the Eye (including Conjunctivitis), and Intestinal Worms furnish over 390,000 cases.

Malarial Fevers show a decrease of 5,366 cases, but still supply 18·54 per cent. of the total number treated. The epidemic of 1908 was continued over into the earlier months of 1909.

The experiment of sending travelling Sub-Assistant Surgeons into selected districts for the purpose of treating Malarial Fevers was tried in Sind, West Khándesh and Poona. The results were not so good as were hoped for, but the men were not sent out early enough in the season, and a repetition of the experiment has been recommended to Government. Provision is also being made for a wider and cheaper distribution of quinine.

A Special Officer (Dr. C. A. Bentley) and an Advisory Committee have been appointed by Government to investigate the causes of Malaria in Bombay City. Dr. Bentley has furnished an interesting *ad interim* report which contains much valuable information.

Of considerable interest and importance is the treatment of disease by means of sera and vaccines, which has been carried out in increasing amount during the year. When used for different forms of coccic infection its results have been most satisfactory. Treatment by means of tuberculin has not given such definite results, but has on some occasions been attended by marked benefit to the patients. Work in this direction is being continued, and Government has been pleased to place Rs. 1,500 at my disposal to assist it. The Medical Officers, who have reported their results under this form of treatment, express their great indebtedness to the Director of the Bacteriological Laboratory for the assistance he has given them in diagnosis and the preparation of sera and vaccines.

Of snake-bite 127 cases with 17 deaths have been reported. Permanganate of Potassium was used in all, but no case is reported in which recovery was undoubtedly due to the action of the drug. The proper identification of the snakes remains a great difficulty.

Statements D and E.—Attendance at State—Special, Railway and Private Non-aided Hospitals and Dispensaries.

5. The attendance at Police, Canal, Forest and other State—Special institutions shows an increase of 9,548.

At Railway Hospitals there was a fall in attendance of 51,351, the decrease being chiefly due to fewer cases of Malarial Fevers and Dysentery treated.

The Private Non-aided institutions are credited with an attendance of 1,953,575 patients or 29,522 more than in the preceding year.

Statement F.—Classes and Sexes.

6. Of the 2,250,211 patients treated, 13,098 were Europeans and Eurasians, 1,422,600 were Hindus, 682,344 were Musalmáns, and 132,169 belonged to other classes.

The number of adult females seeking relief increased from 450,550 to 467,622 forming 20·8 per cent. of the total treated.

Statement G.—Surgical Operations.

7. The total number of Surgical Operations performed during the year was 84,143 as compared with 82,044 in 1908. The patients operated on numbered 83,818, of whom 66,709 were cured, 845 relieved, 342 discharged otherwise, 493 died and 482 remained under treatment at the end of the year.

The mortality among all patients operated on was 0·6.

Among the principal Surgical Operations the operations for cataract rose in number from 1,241 in 1908 to 1,526.

Operations for the removal of vesical calculus numbered 1,224 against 1,271 in the previous year. The stone was crushed in 1,124 cases; and lithotomy was resorted to in 100 cases.

Abdominal operations other than those performed for diseases peculiar to women numbered 1,154 with 150 deaths, while those for diseases peculiar to women numbered 129 with 15 deaths.

There were 662 amputations with 31 deaths.

The total number of obstetric operations was 636 with 34 deaths as compared with 548 and 27 deaths in 1908.

Operations for diseases, peculiar to women other than obstetric and excluding those in which the abdomen was opened, numbered 835 with 7 deaths.

The operative work during the year has been well maintained, and the results achieved reflect great credit upon the Officers in charge of the different institutions.

Further advance has been made in supplying hospitals with necessary and improved instruments and appliances.

Statement H.—Income and Expenditure.

8. The total income, exclusive of the cash balance in hand, amounted to Rs. 17,69,358, as compared with Rs. 18,74,621 in the year 1908. The amount received from Government was Rs. 9,80,509. Rs. 2,20,647 were obtained from Local Funds and Rs. 3,70,622 from Municipal Funds. The interest on invested capital yielded Rs. 38,548. Subscriptions from Europeans and Natives amounted to Rs. 15,496; and miscellaneous receipts amounted to Rs. 1,43,536.

The total expenditure was Rs. 17,46,758. On deducting from this Rs. 1,08,285 remitted into the Treasury on account of hospital fees, sale-proceeds of unserviceable articles, etc., the sum remitted to the District Local Board and the amount invested during the year, the net expenditure was Rs. 16,13,773, as compared with Rs. 17,31,235 in 1908. The average cost of each diet was Rs. 0-2-10 compared with Rs. 0-2-11 in the previous year. The percentage of the total cost paid by Government was 53·2 or 2·0 less than in 1908.

Statement J.—Invested Capital.

9. On 1st January 1909 the invested capital stood at Rs. 9,43,500.

During the year Rs. 21,000 were invested and securities worth Rs. 25,500 were sold, leaving a balance of Rs. 9,39,000 on 31st December 1909.

Equipment of Hospitals.

10. The special grant of Rs. 79,070 placed at my disposal by Government was spent on the equipment of Civil Hospitals during the year.

Contributions.

11. The Thakore Saheb of Jhanor has offered a contribution of Rs. 1,000 towards the construction of a building for the newly opened dispensary at Jhanor in the Broach District, which is at present located in a hired building.

Buildings.—Sanctioned, in process of construction, or completed.

12. The "Sir William Moore's Operating Theatre" in connection with the Jamsetji Jijibhoy Hospital was completely equipped and brought into use with much benefit to the work at the Hospital.

The new operation-rooms at Hyderabad, Sind, Bijápur and Sukkur Civil Hospitals have been completed and taken into use.

The new Civil Hospital at Lárkhána was opened on 1st June 1909.

The construction of a new Out-patient Department at the Gokaldas Tejpal Hospital and new quarters for Nurses have been sanctioned.

The new building at the Albless Hospital, complete with electric fittings, was brought into use in July 1909, and has been of the greatest benefit to the obstetrical work of the Hospital.

At Poona the new Jacob Sassoon Hospital for Europeans and Jews was opened on 6th April 1909. The Septic Maternity Ward of the David Sassoon General Hospital was also completed and taken into use on the same day.

At Kárwár the construction of a new Female Ward and the conversion of the present Female Ward into an Out-patient Department has been sanctioned.

An Out-patient Department for the Sorabji Jamsedji Jijibhoy Civil Hospital, Broach, has been sanctioned.

The proposals to build a new operation-room in connection with the Sir Cowasji Jehangir Civil Hospital, Surat, has been approved of and the work will be taken in hand next year.

At Dhárwár a European Ward, with accommodation for 4 beds, and an Out-patient Department are under construction. A new Infectious Ward and quarters for two Nurses have also been sanctioned.

At Belgaum quarters for Nurses are under construction, and will shortly be completed. Rs. 15,000 have been provided for the Civil Surgeon's bungalow by the Public Works Department.

The construction of the Nursing Home in connection with the Huttesing and Premabhai Civil Hospital, Ahmedabad, was completed during the year.

I have the honour to be,
Sir,
Your most obedient servant,
H. W. STEVENSON,
Surgeon-General, I. M. S.,
Surgeon-General with the Government of Bombay.

APPENDIX I.

CIVIL HOSPITAL AND DISPENSARY STATISTICS.

STATEMENT A.

Showing the number of Civil Hospitals and Dispensaries in the Bombay Presidency during the year 1909.

[Total Population of the Province—25,424,235.]

Class of Civil Hospital and Dispensary.	Number open on 31st December 1908.	Number opened during the year 1909.	Number closed during the year 1909.	Number open on the last day of the year 1909.	Remarks.
1	2	3	4	5	6
I.—State - Public ...	49	(*a*) 1	(*b*) 1	49	(*a*) Larkhána Civil Hospital transferred from Class III. (*b*) Shikárpur Civil Hospital.
II.—State—Special—					
(i) Police ...	4	(*c*) 1	...	5	(*c*) Násik Police Training School Hospital.
(ii) Forests and Surveys ...	2	...	...	2	
(iii) Canals ...	3	...	...	3	
(iv) Others ...	13	...	...	13	
III.—Local and Municipal Funds	263	(*d*) 67	(*e*) 5	265	(*d*) Nagotna (Kolába), Jhánor (Broach), Mirpur Sakro and Sujáwal (Karáchi), Chatfield Dispensary, Nawabshah (Hyderabad), Pano-Akil (Sukkur) and Maalla (Aden). (*e*) Colába Hospital (Bombay), Supa and Yelláp ur Travelling Dispensaries (Kánara), Chachra (Thar and Párkar) and Lárknána Dispensary transferred to Class I.
IV.—Private—Aided ...	10	...	...	10	
V.—Private—Non-aided ...	327	(*f*) 10	(*g*) 7	330	(*f*) 3 in Thána District and 1 each in Kolába, Sátára, Sholápur, Panch Mahals and Káthiáwár Agencies and Surat and Ahmedabad Districts. (*g*) 2 in Ratnágiri District and 1 each in Sátára, Kaira, Sukkur and Aden Districts and Pálanpur Agency.
VI.—Railways	47	...	(*h*) 1	46	(*h*) Londa (Southern Mahratta Railway).
Total ...	718	19	14	723	

CLASSES I AND II.—These include all institutions maintained by provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions has not been regarded as a reason for not classing it as 'State', when provincial and imperial funds are practically responsible for all the charges connected with it. Class I—'Public' are State Dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

CLASS III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, has not been regarded as a reason for not classing it as a local fund dispensary, when its existence is practically dependent upon local funds.

CLASS IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

CLASS V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers has not been regarded as a reason for not treating it as a private non-aided dispensary.

CLASS VI.—Comprises all railway dispensaries, whether maintained by State railways or others.
